

### What is the **Fastest** and **Safest** Way to Clean Restroom Soils, Rust and Lime?

- **Clean Safe** is a powerful, ready to use, multi-purpose restroom cleaner that foams upon contact with limes and alkaline soils.
- **Clean Safe** is formulated with the latest acid replacement technology - not corrosive to skin, and not producing irritating acid fumes.
- **Clean Safe** effectively removes dirt, soap scum, salts, body oils, rust, lime calcium and iron deposits.
- **Clean Safe** is ideal for care of restrooms, spas, shower rooms, swimming pools, and hot tubs in hotels, motels, schools, universities, hospitals, nursing homes, laundries and anywhere water causes oxidation and mineral deposits.
- **Clean Safe** is great on ceramic tile, grout, porcelain, concrete, stainless steel and fiberglass.

### Engineered Acid Replacement Formula

**Clean Safe** is formulated to remove dirt, soap scum, stains caused by mildew, mold or algae, oxidation, corrosion, urine salts, light rust, lime calcium and iron deposits from restroom surfaces including tile grout joints, porcelain, fiberglass, stainless steel, brass, rubber and copper.

### Directions for Use

1. Shake well before use. Do not mix with any other cleaning chemicals.
2. Test in inconspicuous area before use. Do not use on frosted glass, aluminum or galvanized metal, natural marble or stone surfaces. Do not let **Clean Safe** stay on metal, fabrics or carpet - it may discolor.
3. Lightly spray foam directly on soiled surfaces or spray on a sponge and apply to the surface. Let **Clean Safe** penetrate and work for 1-3 minutes.
4. Wipe and rinse thoroughly with clear water to avoid drying on surface.
5. On extreme conditions, repeat as necessary.
6. For toilet bowls and urinals, remove excess water from bowl prior to cleaning. Be sure to apply to the underside of the rim.
